## Objective

---

As an enthusiastic and evolving Front-end Developer , I am actively seeking opportunities to contribute my skills and creatively to a collaborative development team. I am particularly interested in joining a team where I can leverage my current project experience to craft intuitive and visually appealing user interfaces, while continuously expanding my skill set in the field of Front-end development with a strong foundation in **REACT** and **JAVASCRIPT**.

## Projects

---

### [Food Delivery App](#) ( ReactJs, Tailwind CSS )

[Preview](#)

- Developed the frontend for a food delivery app titled "**Tomato**" using React.js and Tailwind css. Implemented key features including cart functionality, product filtering, and seamless navigation using React Router.
- Added user authentication features, including **login** and **sign-in** functions, to enhance security and user experience. Integrated a delivery information section to provide users with essential order details.
- .Collaborated closely with the design and **backend** teams to deliver a cohesive and high-quality product. Ensured cross-device **responsiveness** to guarantee optimal user accessibility across various platforms.

### [Youtube-Clone](#) ( ReactJs )

[Preview](#)

- Developed a responsive **YouTube clone** using React.js, aimed at replicating the core functionalities of the original platform and Designed an intuitive user interface with responsive layouts for seamless viewing across devices.
- Designed and implemented a user-friendly interface with features such as video playback, search functionality, and suggested videos sidebar.
- Utilized React Router for seamless navigation between pages, enhancing user experience and engagement.
